Tshaphuk's

OUR BUSINESS

Tshaphuks' Trading T/A Tshaphuks' Security Solutions is a responsible, ethical and fully compliant partner that takes pride in delivering premium risk and security services across South Africa.

In a business environment where increasing risk can affect your bottom line, you need to consider how a leading security provider can positively impact and mitigate business risk. We aspire to transform traditional security services into integrated, intelligence-driven operations that add value to our clients. Our ability to design fit-for-purpose risk and security solutions puts us at the forefront of our industry.

As a proud member of the Tsebo Solutions Group we acknowledge that developing and empowering our people is the foundation of delivering on our promise to our customers.

OUR UNIQUENESS

Through our fit-for-purpose approach to risk and security solutions, and our uncompromising attitude to quality, we are the partner of choice to deliver unsurpassed protection of your people, buildings and assets.

Our sustainable risk partnerships embody the development of people and communities, underpinned by a culture of health and safety, which translates into the highest degree of confidence and customer satisfaction.

PHYSICAL SOLUTIONS

Manned Guarding

Every day over 100 Tshaphuks' Security Officers head to work, prepared to protect businesses, assets and people. These highly trained officers are professional and friendly and enhance our clients' brands through their conduct and service. We provide:

- Permanent and sundry security officers
- Specialised services
- Protection of valuables
- Canine services

Dedicated Armed Reaction

Your safety and security come first. That's why we combine highly trained response personnel equipped with high-tech solutions to safeguard you, your people and your assets.

- Patrolling vehicles
- Rapid response
- 24-hour alarm monitoring
- 24-hour off-site CCTV monitoring
- Alarm installations and monitoring

Services are monitored 24/7 by the Tshaphuks' Monitoring Centre.

Electric Fencing

We offer a range of integrated and versatile fencing solutions. By forming an intimidating physical barrier, perimeter fencing is vital in the detection, deterrence and delay of potential intruders from accessing your property. Our solutions offer:

- Design and ease of installation
- Fewer maintenance costs
- Safety compliance

Tactical Services

We provide carefully recruited, professional tactical teams to protect people and property. Continual training and evaluation are provided by our Training Academy, which has International Firearms Training Academy (IFTA) and Professional Firearms Trainers Council (PFTC) accredited training provider status. Access to indoor and outdoor shooting facilities, quality equipment, world-class training materials and methodologies, and experienced instructors, ensure that our tactical teams are a cut above the rest.

Access Control

Tshaphuks''s comprehensive range of access-control solutions ensure that all vehicles and pedestrians entering a premises are scanned and that their details, including entrance and exit times, are recorded. Services and other suppliers are vetted before entrance is allowed and their access to the property is monitored. Access is controlled by boom entrance or biometric terminals and can include touch-free temperature screening solutions.

REMOTE MONITORING CENTRE AND INTEGRATED SOLUTIONS

Monitoring Centre

Our state-of-the-art Monitoring Centre has changed the way in which services are delivered. Our highly trained controllers patrol and monitor:

- CCTV
- Gate automation
- Alarms
- Electric fences
- Cold-storage facilities
- Vehicle tracking and off-premises recording of incidents
- Activation of lights, alarm systems, pepper or smoke canisters
- Security officers and other integrated products
- Collation of cyber intelligence
- Smoke alarms and detection

Integrated Technological Solutions

Tshaphuks' provides an array of intruder detection systems, from system design to installation, maintenance and monitoring. Our dedicated controllers monitor these systems 24/7:

- Perimeter CCTV
- Alarms
- Intruder beams
- Electric fencing

Guard-to-Tech Monitoring

Guard-to-Tech solutions use centralised monitoring and response management units to optimise reaction to incidents and risks:

- Stand-alone unit with CCTV cameras
- Safe zones - stand-alone unit with secure bi-directional communication and CCTV
- Basic AI solutions replace guards at specific posts and allow remote-access management, human or vehicle detection, remote control of on/off of lights
- Alarm image verification for remote guard posts

ESTATE LIVING AND COMMERCIAL DENSITY SOLUTIONS

Estate Management

When it comes to estate living we provide a holistic and innovative, yet ultra-flexible solution that offers an array of security management options. Our Estate Living team is committed to providing a quality, caring and safe community environment, coupled with consistently high levels of service. Tshaphuks''s tailor-made solutions encapsulate every element and security strategy, from planning to mobilisation to the ongoing provision of security services at an estate.

Commercial Density

Tshaphuks' designs tailored integrated solutions that include dedicated services within a commercial geography. Our interventions involve the local CPF and SAPS to provide physical protection and remote monitoring for early detection, warning and avoidance of crime. Commercial density initiatives lower costs, provide holistic community solutions and a CiIMS unique to Tshaphuks' clients. Our density mapping, skilled operations and technical teams design, develop and manage safer business environments, lower risk and improve sustainable commercial viability.

Localised Residential Schemes Management

Tshaphuks' provides tailored community protection solutions to residential estates. Our integrated network of joint operations include tactical armed response, 24hr monitoring and auto dispatching, linked to remote CCTV and access control tools, together with joint operation centres. We protect the largest estates in South Africa and Africa. We are leaders in our chosen market and deliver tailored solutions with proven track records and case studies.

A photograph of educational supplies including a stack of books, a red apple, and a pencil holder with colored pencils, set against a green chalkboard background with white chalk drawings of a globe and a house.

Educational Risk and Security

We ensure the safety of teachers, learners and school staff by identifying potential risks inherent in their environment and implementing measures to mitigate these risks through a holistic approach of solutions. Tshaphuks' secures renowned learning institutions across the country, from primary schools to universities. Our priority is to support educational institutions with innovative new products and services.

A photograph showing a person's hand holding a smartphone. The screen of the phone displays a white outline of a house with a chimney and a window, set against a dark background.

Property and People Care

Tshaphuks' Security Solutions provides holistic end-to-end protection services. Our property care offering encompasses vacant property, occupied property and people-management solutions. Highly trained and qualified personnel deliver a tailored solution to meet your business requirements. Manned-guarding solutions are backed by leading-edge technology systems, best suited for the property care environment.

SMART BUILDING SOLUTIONS

Vacant Property

Tshaphuks' provides a holistic suite of property care solutions to secure and maintain your vacant property. Our highly trained and qualified personnel will not only deliver on a variety of specialised solutions, but also provide a human presence at your vacant property. Our property care solutions include:

- Physical and electronic security
- Building cleaning and maintenance
- Garden care
- Pest control
- Hygiene
- Electrical and engineering maintenance and services
- Customised reporting

Internet of Things (IoT)

IoT has become an integral part of our daily lives and includes things like consumer and related devices, home automation, wearable technology and connected appliances –all with remote monitoring capabilities. We can monitor IoT devices from our National Control Centre to detect triggers to escalate and report any issues.

OUR SYSTEMS

Our state-of-the-art systems has changed the way in which services are delivered.

OUR SAFETY

OUR TRAINING

Training is a critical differentiator for our business not only in terms of job creation, but also retention and development. Training is conducted at PSIRA registered and SASSETA accredited Tshaphuks' training facilities across the country. Our qualified training moderators conduct on-site and on-the-job refresher training. Personnel are developed for next-level positions within Tshaphuks' and follow a training and development plan. Our staff aim to enhance your brand through their professional appearance and conduct.
